The Magical Pumpkin Patch Event

Thank you so much for your desire to have our Magical Pumpkin Patch Event. We look forward to presenting this incredible program for your children. Below you'll see how we typically set this all up for you.

Magic Show- (30 min)

We will start with the magic show for the whole center. If you have more kids then can be in one room please discuss the possibility of doing two shows. If we do two shows we will do one show at the beginning, then do the stations outside, and end with the last magic show for the group that did not do it yet. It is best if the magic show is held indoors. This way Dave can set up his backdrop for the show. It also allows for awesome pictures for your group. You can do individual, or class photos using our professional fall back drop. The teachers will be responsible for taking the pictures inside, as we will be outside with our stations. The magic show features the kids as the stars and provides lots of laughter, clean fun, audience participation. Music will be a part of this hilarious presentation as well. It is a fun Halloween show that your kids will love. Once the magic show is over we take the children by class to each station. It works best if we have three classrooms with teachers out at one time. If you have more then three, the next groups will come out after the first three go in. This will continue until all of the groups have rotated thru the stations.

Animal Station/petting zoo - (15 min)

We bring them all in in cages but we also allow the children to interact by petting them and feeding them. Interesting facts will be shared about some of our animals as well. The children love to learn about these fascinating critters.

- * The craziest roosters and hens you have ever seen
- * bunnies- We have a few little ones too this year!
- * Baby ducks

Don't worry about these animals posing a potential mess for you and your staff. We have learned how to show these mess free over the years! If it is indoors, we will be placing large tarps below each cage for easy clean up. We also bring a robotic pony that the kids generally enjoy just as much that moves and reacts to the children's voice and touch.

Scare Crow Making Station – (15 min)

We will provide the supplies- (hay, clothes and head) Teachers or volunteers will be necessary for this station. Dave will be there, but it may take some coaxing for the kids to get into the hay. Once they are having fun in it, they will not want to leave! We also provide a sheet for the kids to take home so they can make scarecrows with their family.

Pumpkin Patch Station - (15 min)

Teachers lead all their children into this area. Each child is free to pick any pumpkin they would like. We provide markers so you can put their names on the bottom. Sometimes this goes faster than the 15 minute time space allotted. We have added a few photo opportunities and a few games to this area so that it will take up more time.
